B.Sc PROJECT GUIDELINES

FEBRUARY 2025

1. Preamble

The introductory part of project reports shall be presented in the following order and numbering format (except the cover page which shall not be numbered explicitly):

- i. Cover page
- ii. Title page
- iii. Declaration
- iv. Certification
- v. Dedication
- vi. Acknowledgements
- vii. Abstract
- viii. Table of contents
- ix. List of Figures
- x. List of Tables

Samples of i – iv are presented in appendices A – D below

i. Cover page

The title cover shall indicate the title of the project, name of the student, Registration Number, department, institution, and month/year of the presentation. All shall be in upper case format. The University logo shall be centrally placed on this page (See appendix A)

ii. Title Page

Title page shall consist of the information on the cover page including the degree in view (See appendix B)

iii. Declaration

This shall contain a declaration statement that the work was carried out by the student and duly supervised. The Name of the student and the supervisor shall appear below the statement including column for signature and date (See appendix C)

iv. Certification

The Certification page shall indicate that the project is approved in partial fulfilment for the award of Bachelor of Science in Computer Science of Federal University of Petroleum Resources. It shall be signed by the project supervisor, the Head of Department, and external examiner with dates (See appendix D).

v. Dedication

This shall specify the name of the person or institution to whom the work is dedicated

vi. Acknowledgements

This shall contain appreciation of any assistance the student received in the course of the project or his entire programme. This must be brief and shall not exceed one page

vii. Abstract

This shall include a brief summary of the purpose of the study, the procedure followed, findings, and conclusion. This shall not be more than half a page and shall not contain citations. This shall be written in past tense

viii. Table of Contents

This shall include chapter titles (in upper case), subtitles (in lower case) with page numbers.

ix. List of Figures

This shall contain the list of all the Figures cited in the thesis, indicating their titles and the pages cited

x. List of Tables.

This shall contain the list of all the Tables cited in the thesis, indicating their titles and the pages cited

2. The Main Body of the Project

CHAPTER ONE

INTRODUCTION

1.1 Background of the Study

1.2 Statement of the Problem

1.3 Aim and Objectives of the Study

1.4 Significance of the Study

1.5 Scope of the Study

1.6 Definition of Terms

CHAPTER TWO

LITERATURE REVIEW

2.1 Theoretical Review or Conceptual Review

2.2 Other Literature on previous approaches, theories, techniques etc.

2.3 Review of Related Works

Table 2.1 Summary of Literature Review

2.5 Gaps in Related Works

CHAPTER THREE

SYSTEMS ANALYSIS AND DESIGN

3.1 Analysis of the Existing System

3.1.1 Architecture of the Existing System

3.1.2 Advantages of the Existing System

3.1.3 Limitations of the Existing System

3.2 Analysis of the proposed System

3.2.1 Architecture of the Proposed System

3.2.2 Advantages of the Proposed System

(Algorithms, Flowcharts and other design tools can also be deployed to explain the system in detail)

3.3 Methodology (this has to do with the software development Methodology deployed in the work)

3.4 Methods of Data Collection

3.4.1 Dataset (Optional)

3.4.2 Data Preprocessing (Optional)

3.5 Design Specification

3.5.1 Input/ output Specification

3.5.2 Process Design etc.

CHAPTER FOUR

SYSTEM IMPLEMENTATION

4.1 Implementation Tools

4.2 Systems Requirements

4.2.1 Hardware Requirements

4.2.2 Software Requirements

4.3 Choice of Programming language/ implementation platform

4.3.1 Justification for Choice of Programming Language

4.4 Sample Outputs (Discussion of Components of Implemented Software/Hardware)

4.5 Systems Evaluation or Comparison with Existing System (as required)

CHAPTER FIVE

SUMMARY, CONCLUSION AND RECOMMENDATIONS

5.1 Summary

5.2 Conclusion

5.3 Recommendations

3. Other Relevant Issues

3.1. Citation in the Text: This shall be made by specifying the author's name followed by the year of publication in parenthesis e.g. Orhionkpaiyo (2021).

3.2 References:

The APA style of referencing shall be adopted in the citations of authors in the text and listing of references at the end of the project. The listing of references shall be in alphabetical order. ACM/IEEE referencing style is also acceptable provided a consistency of referencing style is maintained.

3.3 Font Type and Size:

The Times New Roman shall be adopted as font type while point 12/13" shall be adopted as the font size.

3.4. Project Seminar Presentation

Every student will be required to present a seminar on his/her project topic at the end of first semester examination. The seminar shall be based on chapters 1 – 3 of the student's project work. Students will be appropriately scored and this will form part of the final grade. This emphasizes the need for students to start their project work early enough to meet with the timeline.

3.5 Oral Presentation

Students shall submit one soft-bound copy of the completed projects to their supervisor at least a week to the date of the oral presentation. This will allow the supervisor to score their written work before the day of oral presentation. Any student that defaulted will not be attended to on the day of oral presentation since the score will not be available to form part of the overall score. Students shall submit at least two soft-bound copies of their completed work on the day of oral presentation.

3.6. Final Project Submission: Four hard bound copies of the approved project will be submitted through their supervisors after necessary corrections as recommended during the oral presentation. The copies must be signed by the supervisor before submitting to the project coordinator.

3.7. Evaluation: The following distribution of marks shall apply in evaluation of each student work:

- (i) Supervisor – 40mks
- (ii) Project Seminar presentation – 20mks
- (iii). Final Oral presentation – 40mks
